SUMMARY

Results-driven Web Developer and Designer specializing in custom web development, WordPress, Wix, UI/UX, responsive design, and SEO. Experienced in developing and maintaining business-focused web solutions, customizing websites and functionality, troubleshooting technical issues, and delivering high-quality, user-focused digital experiences.

WORK EXPERIENCE

Website Developer — June 2026 - Present

Ryel Projects Private Limited

- Develop and maintain scalable WordPress websites aligned with client requirements, business objectives, and UI/UX standards.
- Design UI/UX layouts, wireframes, and prototypes in Figma and convert designs into responsive, pixel-accurate WordPress websites.
- Develop and customize WordPress themes, plugins, templates, and custom-coded solutions using PHP, JavaScript, HTML, CSS, and WPCode.
- Build custom website features and functionality to meet specific project requirements and business objectives.
- Leverage Claude, Codex, and Novamira for AI-assisted coding, prototyping, debugging, and development optimization.
- Troubleshoot JavaScript, browser console errors, plugin conflicts, and frontend issues to ensure reliable website functionality.
- Implement on-page and technical SEO and optimize websites for performance, responsiveness, and search visibility.
- Configure Google Analytics and Google Search Console to monitor traffic, indexing, search performance, and SEO insights.
- Manage website deployments, maintenance, backups, hosting, domains, DNS, SSL, and migrations.
- Collaborate with clients and cross-functional teams to deliver user-focused and business-driven web solutions.

Web Designer / Developer | Team Lead — Jan 2024 - May 2026

Sunshell Digital Marketing Agency

- Managed end-to-end website development, content management, and maintenance using WordPress, Wix, and Shopify, aligned with business requirements and timelines.
- Developed responsive, mobile-friendly websites with a focus on UI/UX, usability, performance, and cross-browser compatibility.
- Converted Figma UI/UX designs into responsive, pixel-accurate web interfaces using HTML, CSS, JavaScript, and WordPress.
- Customized WordPress themes, plugins, templates, and website functionality based on project requirements.
- Built and managed Shopify stores, including theme customization, product setup, payment, shipping, and performance optimization.
- Troubleshot website issues, plugin conflicts, console errors, and other technical problems to ensure stable website performance.
- Implemented SEO and website optimization practices to improve performance, usability, and search visibility.
- Managed domains, DNS, hosting, deployments, backups, updates, migrations, and SSL configuration.
- Coordinated team tasks, tracked project progress, and ensured timely delivery of quality deliverables.
- Managed multiple projects simultaneously while maintaining technical quality and meeting deadlines.

Full Stack Web Development Internship (MERN Stack) **February 2026 - March 2026**
AMDOX Technologies

- Designed and developed a full-stack Job Portal Application using MongoDB, Express.js, React.js, and Node.js.
- Implemented secure user authentication and authorization using JWT.
- Developed separate dashboards for job seekers and recruiters.
- Enabled recruiters to post, edit, and manage job listings.
- Allowed candidates to search for jobs, apply online, and track application status.
- Integrated advanced job filtering based on location, experience, skills, and job type.
- Developed RESTful APIs for user management, job postings, and applications.
- Utilized Git and GitHub for version control and collaboration.

Intern - Web Development **Aug 2022 - Oct 2022**
DigitalDrop

- Learned and applied HTML, CSS, JavaScript, and Bootstrap to develop responsive web interfaces.
- Built and managed WordPress websites with a focus on usability and responsive design.
